

7.2 Series

Mobile Site Office

Our Mobile Site Office range has been designed to cater for small to large sites. All site office are electrically designed mine spec ready and Health and Safety equipped. Whatever your need is – mine sites, rail works, road works, pipelines, telecommunications, transmission lines or towers – these vans are quick and easy to relocate and maintain, and 'keep your workforce on the job' instead of unproductive commuting.

The 7.2 Series Mobile Site Office was designed for mid size crew and it is transportable with a larger 4x4 or light truck.
